

Amendments to the Drawings

Please replace the currently filed drawings with the replacement drawings filed herewith. Amendments to the drawings are limited to inclusion of SEQ ID NOs of peptide sequences in Figures 10, 13, and 14 shown in the originally filed drawings and to correction of inadvertent typographical errors in Figure 14. Exemplary support for the corrected peptide sequences depicted in replacement sheet 14 (Figure 14) can be found in the specification as originally filed on page 39 (Table 8 and lines 8-15).

Accordingly, Applicants respectfully submit that no new matter is introduced by these amendments.
